Requirements and Conditions

Customer must monitor pool between visits and contact us with any issues. Please advise us of heavy pool usage (parties) so we can properly plan treatment of the pool. Water level must be maintained to the mid-skimmer level or higher and must be clear enough to easily see the bottom to perform any vacuuming service. Service personnel are only permitted to install APCO supplied chemicals. All chemicals required will be supplied as needed and billed accordingly. Pool must have proper equipment per APCO's recommendation. Although every effort will be made to accommodate your requested time or day of the week, we cannot guarantee any reservation. We cannot assume responsibility for delays beyond our control (weather etc.).

Maintenance plans must be booked at one time and paid for in 2 installments, 50% prior to the first visit, 50% by July 1st. All prices are for pools under 800 square feet in surface area without any water features or spas. APCO reserves the right to; at any time, place an authorization hold, or to preauthorize, any amount required to complete an executed contract including options and fees on the credit card on the contract or on file with APCO. This agreement does not guarantee all visits must be performed. APCO may at any time terminate a service contract and refund the balance of unused services (without discounts).

Plans are for continuous weekly/biweekly visits (no skipping weeks) and do not include spring cleanup or extra visits. All extra visits (spring cleanup, algae, etc.) will be billed at the time of service and are not included in the weekly plans. Spring cleanings and initial visits may require additional time or trips at an additional charge (please see our Spring clean-up agreement for details). Any additional time for any service visit will be billed at \$65/man hour. Unless notified in writing, any parts for repairs that are required costing less than \$75 will be installed and charged to the customer.
